EDUCATION

National Institute of Technology (NIT), Kurukshetra

Aug 2024 – Aug 2028

Bachelor of Technology (B.Tech) in Computer Science and Engineering

CGPA: 9.18

Shivam Public Sr. Sec. School

Rajasthan Board of Secondary Education, Class X

May 2020 – May 2021

Percentage: 94.00%

Rajasthan Board of Secondary Education, Class XII

May 2022 – May 2023

Percentage: 82.80%

PERSONAL PROJECTS

• Chess Multiplayer Web App — GitHub — Live

Jan 2026 – Feb 2026

Tech Stack: HTML, CSS, Node.js, Socket.io, MongoDB, JWT, REST APIs

- **Architected and developed** a real-time multiplayer chess platform supporting **room-based matchmaking**, **concurrent game sessions**, and **synchronized gameplay** across distributed clients.
- **Designed** a **server-authoritative game engine** that enforces legal moves, turn management, check/checkmate detection, and consistent board-state **synchronization** using **WebSocket** communication.
- **Implemented** secure **JWT-based authentication**, protected routes, and persistent user management with **MongoDB**, enabling **authenticated multiplayer gameplay** and **session handling**.

• Scalable URL Shortener — GitHub — Live

June 2026 – July 2026

Tech Stack: Node.js, Express.js, React.js, MongoDB, Redis, BullMQ

- Designed and built a low-latency URL shortening service supporting deterministic short-link generation, caching, and persistent storage.
- Reduced redirect latency by caching hot URLs in Redis, avoiding unnecessary database reads for frequently accessed links.
- Built an asynchronous analytics pipeline using BullMQ to batch click-count updates from Redis to MongoDB, reducing synchronous write overhead.
- Implemented REST APIs, rate limiting, and input validation to improve reliability under concurrent requests.

• Event Portal — GitHub — Live

Feb 2026 – Mar 2026

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs

- **Developed** a full-stack event management platform supporting event creation, registrations, eligibility filtering, and role-based access control for students and organizers.
- **Implemented JWT-based authentication** and **role-based access control** to secure event creation and registration flows.
- **Designed RESTful APIs** and a **MongoDB schema** for event, user, and registration data with **eligibility filtering**.
- **Deployed** frontend on **Vercel** and backend on **Render** for publicly accessible, scalable hosting.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, Java

Web: React.js, Node.js, Express.js, REST APIs, HTML, CSS, Tailwind CSS

ML/Data: scikit-learn, NumPy, Pandas, OpenCV

Databases: MongoDB, Firebase, MySQL

Tools/DevOps: Docker, Git, GitHub, Postman, Kubernetes, AWS

Cloud: Render, Vercel

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design

Math: Probability & Statistics, Linear Algebra

Soft Skills: Problem Solving, Teamwork, Adaptability, Work Ethic, Communication, Leadership, Project Management

AWARDS AND ACHIEVEMENTS

- ICPC 2025 Preliminary Round – **AIR 473**.
- Solved **1800+** algorithmic and data-structure problems across LeetCode, Codeforces, and CodeChef.
- Achieved **Global Rank 952** in Codeforces Round 1084, **Global Rank 597** in Biweekly Contest 172, **Global Rank 190** in Starter 221 (@CodeChef)
- **Knight (1999) rating** @LeetCode, **Specialist (1460)** @Codeforces, **3 Star** @CodeChef
- **Social Summer of Code (SSoC):** Open-source contributor; collaborated on real-world repositories, fixed issues, and merged pull requests following community guidelines.
